

**LOSS IS SILENT
SO IS CONTROL**
SOME THINGS SHOULDN'T GO MISSING

DigitFMS

DIGIT D-CARD

PRESENCE, WITHOUT EFFORT

PRESENCE, WITHOUT EFFORT

WHEN VISIBILITY DISAPPEARS, CONTROL FOLLOWS

Know where your essentials are - quietly, continuously, globally.

The Digit D-Card is built for what traditional tracking ignores. Slim enough to disappear into your daily life. Powerful enough to ensure it never disappears from your awareness.

No wiring. No installation. No dependency on SIM infrastructure.

Just a global Bluetooth-powered network working silently in the background.

Because the things you carry matter.

DIGIT D-CARD

ULTRA-THIN, ALWAYS PRESENT, NEVER GUESSING

A precision-engineered tracking card designed to live where loss happens most - wallets, luggage, backpacks.

NO SIM, NO NOISE, JUST CERTAINTY

DigitFMS

DIGIT D-CARD

VISIBILITY SHOULD BE EFFORTLESS.

THINGS DON'T DISAPPEAR THEY SLIP THROUGH MOMENTS

LOSS RARELY FEELS DRAMATIC

It happens quietly. Gradually. Almost invisibly.

01

THE MOMENT YOU STOP PAYING
ATTENTION IS WHEN IT DISAPPEARS

02

SMALL ITEMS,
IMMEDIATE IMPACT

03

RECOVERY STARTS WITH VISIBILITY
AND MOST OF THE TIME, THERE IS NONE

04

WHAT MOVES WITH YOU IS OFTEN
WHAT'S HARDEST TO TRACK.

And by the time you notice, it's already out of reach.

MOST TRACKING SOLUTIONS WERE NEVER BUILT FOR THESE MOMENTS

They focus on vehicles. Assets. Infrastructure.
Not the everyday items that move with you.

DigitFMS

DIGIT D-CARD

LOSS IS QUIET. SO IS PREVENTION.

WHEN VISIBILITY STOPS, VULNERABILITY STARTS

SMALL LOSSES CREATE BIGGER CONSEQUENCES

A missing wallet isn't just inconvenience. It's identity exposure. Financial risk. Time lost. Cards cancelled. Accounts frozen. Hours spent recovering what should never have been lost.

A misplaced bag isn't just an object. It's disruption. Delays. Uncertainty. Missed connections. Operational setbacks. Decisions made under pressure.

And the longer it goes unseen - the harder it becomes to recover. Because once visibility is lost, control follows.

**WITHOUT VISIBILITY,
RECOVERY BECOMES GUESSWORK AND GUESSWORK IS EXPENSIVE**

DigitFMS

DIGIT D-CARD

UNCERTAINTY CARRIES A COST.

CERTAINTY WITHOUT COMPLEXITY

GLOBAL TRACKING, NO SIM, NO COMPROMISE

DigitFMS

DIGIT D-CARD

PRESENCE, WITHOUT EFFORT

DON'T WONDER, KNOW

Digit D-Card operates on a Bluetooth crowdsourcing network, leveraging nearby devices to securely and anonymously update location - extending visibility far beyond traditional tracking limits.

- No SIM cards.
- No signal dependency.
- No monthly subscriptions.
- No infrastructure to install.
- No systems to manage.
- No friction.

Just a precision-engineered card that integrates into your everyday carry - working silently, in the background, continuously.

Location awareness when it matters.
Proximity alerts when it's close.
Audible feedback when it's within reach.
Because visibility shouldn't depend on effort.

Control shouldn't depend on complexity.

**JUST A THIN, DURABLE CARD,
ENSURING WHAT MATTERS
STAYS WITHIN REACH**

VISIBILITY DRIVES CONTROL.

FAQ

HOW DOES THE DIGIT D-CARD TRACK ITEMS WITHOUT A SIM CARD?

Digit D-Card uses a **Bluetooth crowdsourcing network**, where nearby devices securely and anonymously update its location. This allows global visibility without relying on SIM cards or mobile data.

WHAT IS THE TYPICAL BATTERY LIFE OF THE D-CARD?

The D-Card is powered by a **high-capacity lithium battery designed to last 12 months or more**, delivering consistent performance without the need for recharging.

HOW ACCURATE IS THE TRACKING?

The D-Card provides **proximity-based tracking within 15-20 meters via Bluetooth**, combined with broader location updates through the global network - **giving both close-range precision and extended visibility**.

CAN I LOCATE THE ITEM IF IT'S NEARBY?

Yes. The built-in buzzer allows you to trigger an audible alert, making it easy to locate the item when it's within close range.

IS THE D-CARD DURABLE ENOUGH FOR EVERYDAY USE?

Absolutely. Built with tempered glass and aerospace-grade aluminium, and rated IP65, the D-Card is designed to handle daily wear across travel, work, and personal environments.
