

VISIBILITY DOESN'T *ASK PERMISSION*

DEPLOY INSTANTLY, TRACK INVISIBLY, RECOVER DECISIVELY

*Digit*FMS

DIGIT D-POD

CONTROL, DEPLOYED INSTANTLY

TRACKING WITHOUT INSTALLATION

**HIDDEN ASSETS,
UNMONITORED MOVEMENT,
SILENT LOSSES
UNTIL NOW**

Digit D-Pod

Deploy instantly. Track invisibly. Recover decisively. Because operations don't pause for fitment. Most tracking solutions require time. Planning. Installation. Downtime.

The D-Pod removes all of it.

MAGNETIC, SELF-CONTAINED, IMMEDIATE

Placed in seconds. Working within hours. No wiring. No dependency. Just instant asset visibility - wherever you need it.

**A COMPACT, COVERT TRACKING DEVICE BUILT FOR ASSETS
THAT DON'T WAIT FOR INSTALLATIONS**

NO WIRING, NO DOWNTIME, NO COMPROMISE

DigitFMS

DIGIT D-POD

VISIBILITY DOESN'T ASK PERMISSION.

ASSETS MOVE WHETHER YOU SEE THEM OR NOT

MOVEMENT WITHOUT VISIBILITY IS RISK

01

MOVEMENT HAPPENS
WITHOUT INSTRUCTION

02

ACCOUNTABILITY DISAPPEARS
BETWEEN HAND-OVERS

03

TIME DELAYS
HIDE REAL ASSET LOCATION

04

"LAST SEEN"
IS NOT REAL VISIBILITY

Trailers get relocated.
Equipment gets reassigned.
Generators disappear between sites.

Not stolen. Not lost.
Just... unaccounted for.

Until it becomes a problem.

**THE REALITY IS SIMPLE: IF YOU'RE NOT
TRACKING IT - YOU'RE GUESSING**

DigitFMS

DIGIT D-POD

GUESSWORK IS NOT A STRATEGY.

THE GAP IS WHERE LOSS HAPPENS

**NOT EVERY LOSS IS DRAMATIC
MOST ARE SILENT**

Untracked assets create operational blind spots:

- Misplaced trailers
- Unauthorised movement
- Delayed recovery
- Insurance exposure
- Escalating replacement costs

And the worst part?

**YOU ONLY REALISE IT
WHEN IT'S TOO LATE**

DigitFMS

DIGIT D-POD

WHAT YOU DON'T TRACK, YOU EVENTUALLY LOSE.

SMALL DEVICE *MASSIVE CONTROL*

COVERT TRACKING POWERED BY A GLOBAL NETWORK

Digit **FMS**

DIGIT D-POD

CONTROL, DEPLOYED INSTANTLY

WHAT YOU DON'T TRACK, YOU EVENTUALLY LOSE

**DIGIT D-POD OPERATES ON A
COMPLETELY DIFFERENT PRINCIPLE**

No SIM.
No wiring.
No visible infrastructure to interfere with.

**IT DOESN'T RELY ON TRADITIONAL
NETWORKS**

It leverages the Apple Find My ecosystem
- A global, constantly moving network of
nearby devices.

Every compatible device that passes within
range becomes a silent signal carrier.

**NO PAIRING
NO AWARENESS
NO DISRUPTION**

The result?

A distributed tracking system that operates
without dependency on a single point of
failure.

**QUIET
PASSIVE
RELENTLESS
PLACED ONCE
LEFT UNDETECTED**

**REPORTING CONTINUOUSLY
AS THE WORLD MOVES AROUND IT**

DigitFMS

DIGIT D-POD

INVISIBLE BY DESIGN. POWERFUL BY OUTCOME.

KEY CAPABILITIES

ENGINEERED FOR REAL-WORLD DEPLOYMENT

BUILT FOR HARSH ENVIRONMENTS DESIGNED FOR SIMPLICITY

MAGNETIC BASE
Install in seconds

IP68 WATERPROOF
Survives extreme conditions

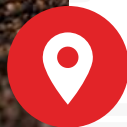

±2 YEAR BATTERY LIFE
Long-term deployment

COMPACT DESIGN
Fully covert

NO SIM REQUIRED
Zero infrastructure dependency

PASSIVE TRACKING
Undetectable to asset handlers

DigitFMS

DIGIT D-POD

BUILT TO STAY. DESIGNED TO DISAPPEAR.

NOT ALL TRACKING IS EQUAL

Some systems monitor
Others recover
Traditional tracking depends on visibility

D-POD DEPENDS ON INVISIBILITY

Traditional systems require installation
D-POD REQUIRES SECONDS

Traditional tracking can be tampered with
D-POD IS NEVER EXPECTED

THIS IS NOT FLEET TRACKING, THIS IS ASSET INTELLIGENCE

DigitFMS

DIGIT D-POD

THE ADVANTAGE IS NOT BEING SEEN.

FROM UNCERTAINTY TO CONTROL

MEASURABLE OUTCOMES, IMMEDIATE VALUE

- Faster asset recovery
- Reduced loss exposure
- Improved operational awareness
- Lower insurance risk
- Increased accountability across teams

**THIS ISN'T ABOUT TRACKING
IT'S ABOUT KNOWING**

DigitFMS

DIGIT D-POD

CLARITY CHANGES DECISIONS.

FAQ

HOW IS THE D-POD ACTIVATED?

The unit is activated by unscrewing the housing and connecting the internal battery. Once connected, the device automatically begins its initialisation process and prepares to transmit its first location.

HOW QUICKLY WILL I RECEIVE THE FIRST LOCATION?

After activation, the first position update is typically received within approximately one hour. This allows the device to register within the network and begin reporting accurately.

HOW OFTEN DOES THE DEVICE UPDATE ITS LOCATION?

The D-Pod typically provides between 8 and 25 location updates per day. Update frequency is influenced by environmental factors such as the number of nearby compatible devices, movement patterns, and surrounding conditions.

DOES THE D-POD REQUIRE A SIM CARD OR GSM CONNECTIVITY?

No. The device operates without a SIM card and does not rely on GSM or traditional cellular networks. It leverages the Apple Find My network, using nearby devices to securely relay location data.

CAN RECOVERY BE INITIATED IF AN ASSET IS COMPROMISED?

Yes. Recovery procedures can be activated once the asset is confirmed to be stationary. This enables a controlled and coordinated response to retrieve the asset efficiently.

DigitFMS

DIGIT D-POD

THE MORE YOU KNOW, THE MORE YOU CONTROL.

MODEL: DIGIT D-POD

MODEL NUMBER: PB705 COVERT TRACKING DEVICE

PRODUCT FEATURES

First Position
Within ± 1 hour

Up to 2 years
Battery Life

IP68 Waterproof
For harsh environments

Magnetic
Base

Updates
8-25 Per Day

Connectivity
Apple Find My network

Compact
And Discreet

Easy
Activation

PRODUCT SPECIFICATIONS

Attributes	Parameters
Activation	Screw open the unit, Connect the internal battery
First Position	Initial update within ± 1 hour after activation
Update Frequency	8-25 updates per day, Depends on surrounding device activity
Connectivity	No SIM card/GSM, Operates via Apple Find My network
Recovery/Service	Activated when confirmed stationary, Standard fees apply
Performance	Installation, Magnetic base, Tool-free deployment
Form Factor	Compact and discreet, No notification to nearby individuals
Device Specs	38mm(W) x 26mm(H) IP68 waterproof, ± 2 years Battery Life

DESIGNED FOR MOVEMENT

IF IT MOVES WITH YOU, IT SHOULD BE VISIBLE

DIGIT D-POD is designed for:

LOGISTICS & TRANSPORT FLEETS

MINING & HEAVY EQUIPMENT

CONSTRUCTION SITES

TRAILER RENTAL BUSINESSES

FUEL DEPOTS & GENERATORS

INSURANCE RISK MITIGATION

IF IT MOVES,
IF IT DISAPPEARS,
IF IT MATTERS,
IT NEEDS D-POD
