

TRACK WHAT MATTERS

SOME THINGS WORK BETTER QUIETLY

***Digit*FMS**

DIGIT D-STICKER

SILENT. DISPOSABLE. TRACEABLE.

NOT EVERYTHING NEEDS TO BE PERMANENT

NOT EVERYTHING NEEDS WIRES
NOT EVERYTHING NEEDS INSTALLATION
SOME THINGS JUST NEED TO BE FOUND
SOME PROBLEMS REQUIRE TEMPORARY INTELLIGENCE

Digit D-Sticker is built for moments that matter.

- Short-term tracking
- Rapid deployment
- Zero installation

Temporary tracking isn't optional - it's operational risk coverage. When assets move outside controlled environments, visibility drops instantly. Traditional systems don't fail here - they arrive too late.

**WHEN VISIBILITY IS NEEDED NOW, NOT NEXT WEEK
THIS IS WHAT YOU USE**

VISIBILITY DELAYED IS CONTROL LOST.

DigitFMS

DIGIT D-STICKER

DEPLOY FAST. KNOW SOONER.

ASSETS MOVE VISIBILITY WON'T ALWAYS FOLLOW

Movement is constant.
Control isn't.

Every transfer introduces risk.
Every handover creates a gap.
Every untracked moment increases exposure.

01

GOODS GET TRANSFERRED

02

VEHICLES CHANGE HANDS

03

PACKAGES MOVE THROUGH UNKNOWN ENVIRONMENTS

And somewhere along the way - visibility disappears.

Not because systems failed.
Because they were never there to begin with.

Lost visibility delays decisions.
Delayed decisions extend recovery time.
Extended recovery time increases loss exposure.

**YOU DON'T LOSE ASSETS WHEN THEY MOVE
YOU LOSE THEM WHEN NO ONE IS WATCHING**

DigitFMS

DIGIT D-STICKER

WHAT YOU DON'T TRACK, YOU LOSE CONTROL OF.

THE GAP ISN'T TECHNOLOGY IT'S TIMING

Most systems are built for permanence. Real-world risk isn't.

PERMANENT TRACKING IS POWERFUL
But not everything justifies installation

- Short-term assets
- Temporary movements
- Unplanned risks

Installation delays create operational blind spots.
Procurement cycles don't match real-world risk timing.
Not every asset justifies infrastructure - but every asset carries exposure.

**THAT'S WHERE THE GAP LIVES AND THAT'S WHERE LOSSES HAPPEN
THE RISK ISN'T A LACK OF TECHNOLOGY, IT'S A LACK OF TIMING**

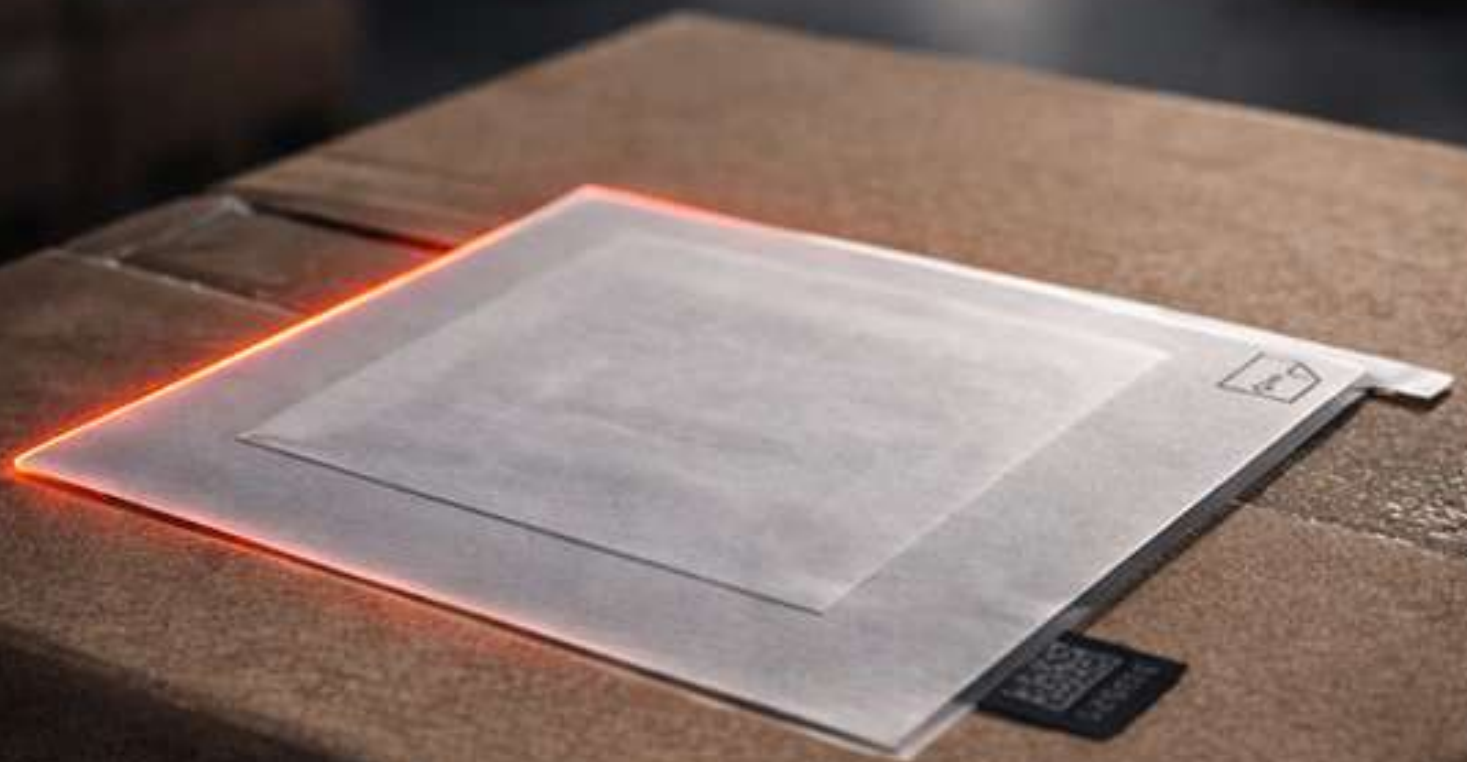

DigitFMS

DIGIT D-STICKER

GAPS ARE WHERE PROBLEMS START.

INSTANT DEPLOYMENT *ZERO INSTALLATION*

BUILT FOR MOMENTS THAT DEMAND VISIBILITY
WITHOUT OPERATIONAL DELAY

DIGIT D-STICKER

SILENT. DISPOSABLE. TRACEABLE.

CUT IT STICK IT TRACK IT

When response time matters, complexity becomes risk. Visibility should deploy as fast as the problem appears.

DIGIT D-STICKER DELIVERS **IMMEDIATE, TEMPORARY TRACKING** WITHOUT COMPLEXITY

- No installation
- No wiring
- No disruption

Designed for rapid operational response.
Deploy in seconds -
without interrupting work-flow.
Intelligence without infrastructure.

JUST SILENT, **RELIABLE LOCATION INTELLIGENCE** WHEN AND WHERE YOU NEED IT

DIGIT D-STICKER

EVERYTHING YOU NEED. NOTHING YOU DON'T.

MOST TRACKING IS INSTALLED THIS ONE ISN'T

BEFORE SYSTEMS EXIST, RISK ALREADY DOES

Most tracking solutions are designed for structured environments. Real-world operations aren't.

DIGIT D-STICKER EXISTS WHERE TRADITIONAL SYSTEMS DON'T

- No specific asset dependency
- No infrastructure requirement
- No operational delays

Installed systems require planning. Planning requires time. Time is where exposure exists.

**IT WORKS IN THE BACKGROUND
QUIETLY, RELIABLY, INTELLIGENTLY
THIS IS WHAT YOU USE BEFORE SYSTEMS EXIST**

DigitFMS

DIGIT D-STICKER

NOT ALL CONTROL IS VISIBLE.

SMALL DEVICE REAL CONSEQUENCES

VISIBILITY CHANGES OUTCOMES

What you can't see, you can't control.
What you can't control, you can't recover.

RECOVER LOST ASSETS FASTER
TRACK TEMPORARY MOVEMENTS
REDUCE BLIND SPOTS IN OPERATIONS
IMPROVE ACCOUNTABILITY ACROSS HAND-OVERS

- Reduce recovery time on lost or misplaced assets
- Introduce traceability into previously untracked movements
- Strengthen accountability across teams, drivers, and transfers
- Create measurable movement history where none existed

THIS ISN'T ABOUT TRACKING EVERYTHING
IT'S ABOUT TRACKING WHAT MATTERS - WHEN IT MATTERS

YOU CAN'T IMPROVE WHAT YOU CAN'T SEE

FAQ

HOW LONG DOES THE DIGIT D-STICKER OPERATE?

The Digit D-Sticker delivers up to approximately 6 weeks of operational tracking, depending on environmental conditions and usage patterns.

HOW FREQUENTLY DOES THE DEVICE UPDATE ITS LOCATION?

Location updates are typically recorded at roughly hourly intervals, providing consistent visibility without excessive battery consumption.

DOES THE DIGIT D-STICKER REQUIRE INSTALLATION OR WIRING?

No installation is required. The device is applied directly to the asset and activated, enabling immediate deployment without operational disruption.

WILL NEARBY APPLE USERS BE NOTIFIED OF THE DEVICE?

No. The Digit D-Sticker operates silently within the Apple Find My network and **does not trigger notifications to nearby users.**

WHERE CAN TRACKING DATA BE ACCESSED?

All tracking information is available through Digit-Web and the Digit mobile application, including basic trip visibility and movement history.
