

STOP THEM *INSIDE*

TURN INTRUSION TIME INTO CONTROLLED SECONDS
NOT UNCONTROLLED LOSS

*Digit*FMS

DIGIT D-PEPPER

DEPLOY, DISRUPT, DOMINATE

FROM DETECTION TO DISRUPTION

ALARMS DON'T STOP INTRUDERS, TIME DOES

Every system tells you when something is wrong.
Very few systems do something about it.

D-Pepper doesn't notify. It forces a decision.

The moment intrusion begins - the environment becomes hostile.

- Immediate deterrence
- Forced evacuation
- Remote activation
- Physical disruption

WHEN ACCESS IS BREACHED, CONTROL BEGINS

D-Pepper is not a single system.

It's a scalable security platform designed to operate across environments - from small residential spaces to large industrial sites and mobile fleet applications.

- Portable systems for rapid deployment
- Commercial systems for fixed installations
- Industrial systems for large-scale coverage
- Automotive systems for vehicle protection

DigitFMS

DIGIT D-PEPPER

THIS IS WHERE SECURITY BECOMES CONTROL.

THE PROBLEM ISN'T SECURITY, IT'S TIME

Most break-ins don't fail.
They succeed quietly.

Not because systems failed but because **nothing stopped the intruder in the moment.**

By the time response arrives:

- Damage is done
- Stock is gone
- Operations are disrupted

INTRUSION DOESN'T WAIT FOR RESPONSE

OPERATIONAL CONSEQUENCES:

- 01 10-15 MINUTES OF UNCONTROLLED ACCESS
- 02 HIGH-VALUE LOSS
- 03 STRUCTURAL DAMAGE
- 04 BUSINESS DOWNTIME
- 05 ESCALATING INSURANCE RISK

THIS IS WHERE SECURITY BECOMES CONTROL

DigitFMS

DIGIT D-PEPPER

IF YOU CAN'T STOP IT - YOU FUND IT.

RISK IS MEASURED IN MINUTES

Intrusion isn't a single event.
It doesn't happen once - and end.
It opens a window.
A window where your environment is no longer yours.

Where access is uncontrolled. Where movement is unchallenged. Where time starts working against you. **Every second inside your operation is not neutral.**

It's active.

Loss increases.
Damage compounds.
Decisions disappear.

And control - quietly - slips away.

In high-risk environments, response is never immediate. Distance delays intervention. Infrastructure slows reaction. And by the time anyone arrives - the outcome is already defined.

THE LONGER THEY STAY - THE MORE YOU LOSE

TIME UNCONTROLLED IS LOSS MULTIPLIED.

CONTROL THE ENVIRONMENT

WHEN INTRUSION STARTS - CONTROL BEGINS

DigitFMS

DIGIT D-PEPPER

DEPLOY, DISRUPT, DOMINATE

END THE MOMENT

D-PEPPER TRANSFORMS YOUR ENVIRONMENT INTO AN ACTIVE DEFENCE SYSTEM

D-Pepper can also be configured to act before intrusion fully occurs.

By mounting nozzles externally, the system can deploy at entry points - disrupting intruders before they gain access to the interior of your operation.

The moment intrusion is detected:

- Pepper fog deploys
- Visibility collapses
- Intruders disengage

This is not detection. This is **environmental denial.**

SEE LESS, CONTROL MORE
D-PEPPER DOESN'T WAIT, IT ACTS

Whether triggered by:

- Alarm integration
- Remote activation
- Panic input

THE OUTCOME IS IMMEDIATE:

- **DISRUPTION**
- **CONFUSION**
- **EXIT**

THIS IS NOT DETECTION - THIS IS INTERRUPTION

- Rapid pepper fog deployment
- Remote trigger capability
- Alarm integration
- Configurable spray timing
- Remote activation via phone or control system
- Trigger based on live CCTV visibility

DigitFMS

DIGIT D-PEPPER

STOP THE MOMENT BEFORE IT SPREADS.

KEY CAPABILITIES

BUILT TO DISRUPT

SYSTEM

- Portable & fixed installations
- Single / Dual / Industrial systems

DEPLOYMENT

- 100ml / 300ml / 2kg systems
- Multi-directional nozzle options

CONTROL

- Remote arm/disarm/panic
- Alarm system integration

EFFECT

- Pepper fog incapacitation
- Immediate environmental denial

CONFIGURATION

- Adjustable spray timing
- Delay settings

DigitFMS

DIGIT D-PEPPER

POWER WITHOUT COMPLEXITY.

LOOKS LIKE A SYSTEM PERFORMS LIKE A FORCE

Most systems notify. They detect intrusion, trigger alerts, and record events - but they don't change the outcome. Once access is breached, loss is already in motion, and those systems simply document it while it happens.

D-Pepper removes that delay by acting instantly. The moment intrusion begins, the environment shifts - cutting off the intruder's advantage and limiting how long they can operate inside your space.

- Visibility drops
- Movement is restricted
- Time inside is reduced
- Escalation is contained

What would take minutes is reduced to seconds. What would escalate is stopped early.
This is not reporting. This is intervention.

NO RESPONSE DELAY, NO NEGOTIATION

CONTROL IS IMMEDIATE.

WHERE TIME BECOMES CONTROL

Control isn't theoretical.

It's measured in how quickly you reduce exposure once intrusion begins. The ability to limit time inside your environment directly determines the level of loss, damage, and disruption your operation absorbs.

**This is not just about preventing intrusion
- it's about minimising the damage when intrusion occurs.**

OUTCOMES

- Reduce intrusion time from minutes to seconds
- Minimise damage exposure
- Protect stock and infrastructure
- Improve response effectiveness
- Strengthen risk posture

LESS TIME INSIDE = LESS LOSS

DigitFMS

DIGIT D-PEPPER

CONTROL IS MEASURABLE IN SECONDS.

HOW IS THIS DIFFERENT FROM AN ALARM SYSTEM?

Most alarm systems are built to notify - they detect intrusion, trigger alerts, and rely on response teams to intervene. **D-Pepper goes further by acting in the moment.** Instead of waiting for someone to arrive, it immediately changes the environment when intrusion occurs, disrupting the intruder and limiting how long they can operate inside your premises.

CAN IT ACTUALLY PREVENT INTRUSION?

D-Pepper is designed to prevent intrusion from escalating. The moment the system is triggered, pepper fog is deployed into the environment, reducing visibility and creating immediate discomfort. This forces intruders to disengage quickly, cutting the event short and preventing extended access to your operation.

DOES IT INTEGRATE WITH EXISTING SYSTEMS?

Yes. D-Pepper integrates seamlessly with existing alarm infrastructure and can be triggered automatically on intrusion events or manually via remote activation. This allows it to become part of a broader security ecosystem while adding an active response layer.

IS IT SCALABLE ACROSS DIFFERENT ENVIRONMENTS?

D-Pepper is built to scale. From portable DIY units for smaller spaces to commercial and industrial systems covering large facilities, remote sites, and high-risk environments, the system can be **configured to match the operational requirements of your site.**

IS IT SAFE TO USE?

The system uses a food-grade pepper formulation with a Scoville rating of approximately 1 million, designed to cause immediate but temporary discomfort without long-term harm when used correctly. **While immediately effective in incapacitating intruders,** the effects are short-term and non-permanent when used correctly, **making it a controlled and responsible security solution.**

DigitFMS

DIGIT D-PEPPER

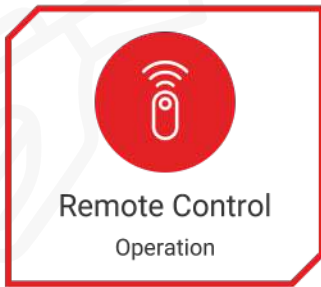

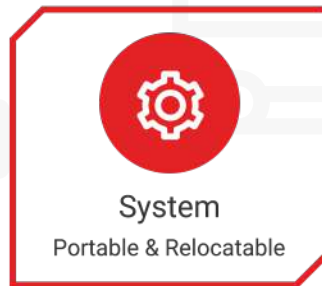

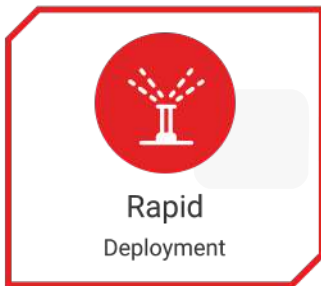

**INTRODUCTION
WATCH VIDEO**

DEFENCE THAT RESPONDS IN REAL TIME.

MODEL: DIGIT D-PEPPER

PORTABLE SYSTEM 100ML/300ML PEPPER SECURITY UNIT

- **RAPID DEPLOYMENT**
Plug-and-play system for immediate use
- **PORTABLE & RELOCATABLE**
Move between sites as needed
- **REMOTE CONTROL OPERATION**
Arm, disarm and panic trigger
- **IMMEDIATE PEPPER DEPLOYMENT**
Activates instantly on intrusion
- **ADJUSTABLE SPRAY TIMING**
Configurable deployment duration
- **ENTRY & EXIT DELAY SETTINGS**
Customisable timing logic
- **INTEGRATED SIREN MODE**
Audible deterrent + alert
- **MULTI-TRIGGER INPUTS**
Sensor and panic activation
- **TAMPER DETECTION**
Auto-trigger protection cycle
- **COMPACT & CONCEALABLE**
Designed for discreet installations

IDEAL FOR

Homes

Small offices

Garages

Remote temporary sites

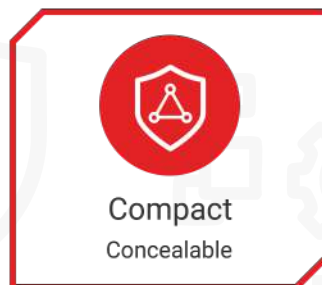

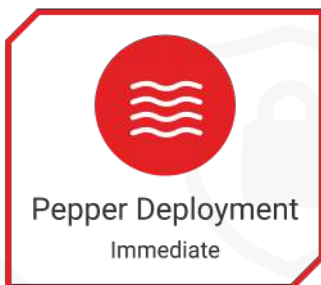

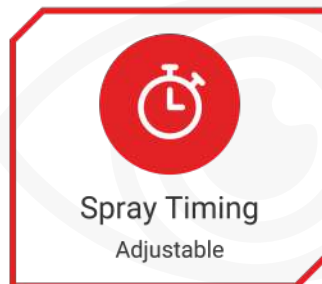

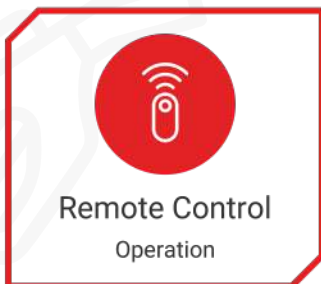

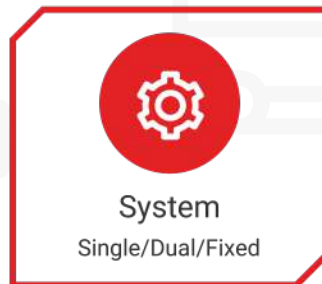

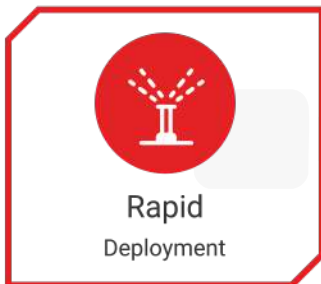

DigitFMS

DIGIT D-PEPPER

THE SMARTEST DEFENCE IS IMMEDIATE.

MODEL: DIGIT D-PEPPER

300 COMMERCIAL SYSTEM SINGLE/DUAL/FIXED INSTALLATION SYSTEM

- **SINGLE OR DUAL SYSTEM OPTIONS**
Scalable coverage zones
- **MULTI-DIRECTIONAL SPRAY**
Up to multiple nozzle outputs
- **FIXED INSTALLATION**
Permanent infrastructure solution
- **ALARM INTEGRATION**
Triggers automatically on intrusion
- **REMOTE & CCTV ACTIVATION**
Trigger system based on live monitoring
- **CONFIGURABLE SPRAY & DELAY**
Full deployment control
- **EXTENDED SPRAY COVERAGE**
Up to 6-7m+ range
- **TAMPER DETECTION SYSTEM**
Auto-repeat spray cycle
- **CONTINUOUS PROTECTION MODE**
Operates until disarmed
- **TIME REDUCTION IMPACT**
Reduces intrusion time to 1-2 minutes

IDEAL FOR

Retail stores

Warehouses

Distribution centres

Medium commercial environments

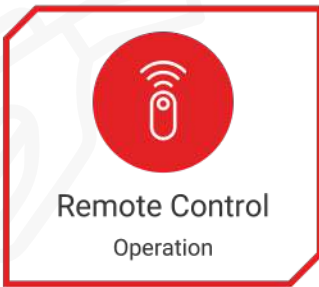

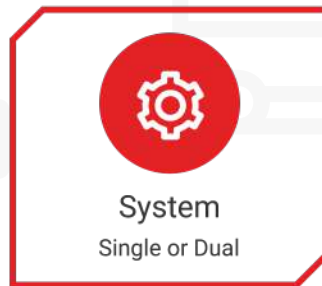

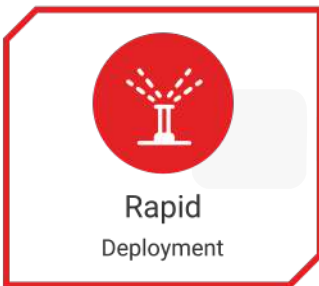

DigitFMS

DIGIT D-PEPPER

THE SMARTEST DEFENCE IS IMMEDIATE.

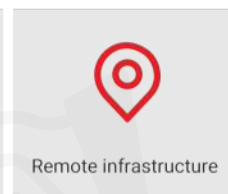

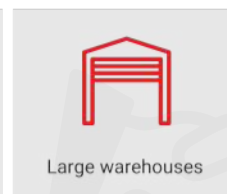

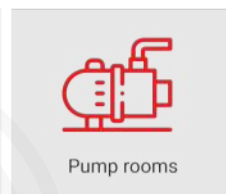

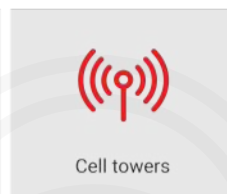

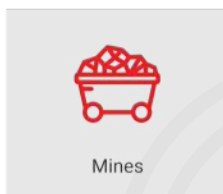

MODEL: DIGIT D-PEPPER

2KG INDUSTRIAL SYSTEM HIGH-VOLUME PEPPER SECURITY SYSTEM

- **LARGE AREA COVERAGE**
Designed for wide-space deployment
- **EXTENDED SPRAY DURATION**
Longer operational deployment cycles
- **MULTI-NOZZLE SYSTEM**
Directional coverage control
- **HIGH-RISK SITE PROTECTION**
Built for remote/delayed-response areas
- **INDUSTRIAL INSTALLATION**
Permanent infrastructure integration
- **ALARM & REMOTE INTEGRATION**
Full system compatibility
- **REPEAT DEPLOYMENT CAPABILITY**
Cycle-based deterrence
- **MAXIMUM DISRUPTION OUTPUT**
Designed to disperse multiple intruders
- **EXTERNAL NOZZLE DEPLOYMENT**
Pre-entry disruption at access points
- **SCALABLE SYSTEM DESIGN**
Single or dual system configurations

IDEAL FOR

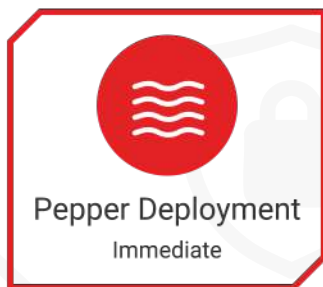

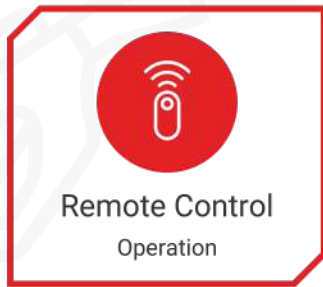

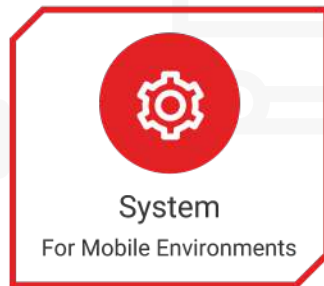

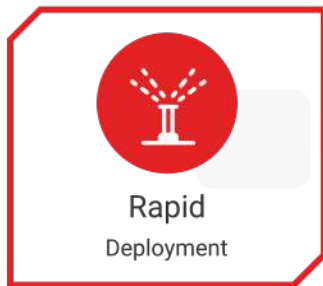

DigitFMS

DIGIT D-PEPPER

THE SMARTEST DEFENCE IS IMMEDIATE.

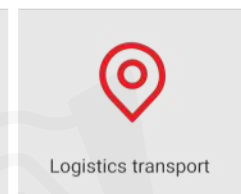

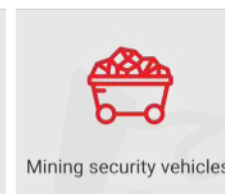

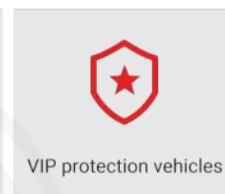

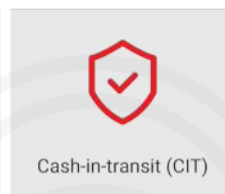

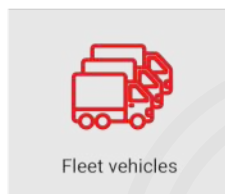

MODEL: DIGIT D-PEPPER

AUTOMOTIVE SYSTEM VEHICLE-BASED PEPPER SECURITY SYSTEM

- **VEHICLE-BASED PROTECTION**
Designed for mobile security environments
- **2 OR 4 NOZZLE CONFIGURATION**
Directional spray around vehicle
- **EXTERNAL SPRAY DEPLOYMENT**
Protects vehicle perimeter
- **RAPID PANIC ACTIVATION**
Driver-controlled trigger
- **MOBILE DEFENCE LAYER**
Protection in transit environments
- **HIGH-RISK APPLICATION READY**
Built for hostile and hijack-prone areas
- **INTEGRATED SYSTEM CONTROL**
Compatible with vehicle systems
- **IMMEDIATE INTRUSION DISRUPTION**
Forces disengagement at point of attack
- **TARGETED SPRAY CONTROL**
Directional deployment zones
- **FLEET SECURITY INTEGRATION**
Aligned to logistics and transport operations

IDEAL FOR

DigitFMS

DIGIT D-PEPPER

THE SMARTEST DEFENCE IS IMMEDIATE.

WHERE RESPONSE IS *NEVER FAST ENOUGH*

WHERE PERFORMANCE MEETS REALITY

DIGIT D-PEPPER is designed for:

WAREHOUSES & DISTRIBUTION CENTERS

MINING & REMOTE INFRASTRUCTURE

CELL TOWERS & PUMP ROOMS

RETAIL STORES & COMMERCIAL SPACES

FLEET VEHICLES & HIGH-RISK TRANSPORT

CASH-IN-TRANSIT & VIP PROTECTION

FARMS & AGRICULTURAL SITES

RESIDENTIAL PROPERTIES

DigitFMS

DIGIT D-PEPPER

BUILT WHERE RISK LIVES.

STOP THEM *INSIDE*

TURN INTRUSION TIME INTO CONTROLLED SECONDS
NOT UNCONTROLLED LOSS

FOR MORE INFORMATION GET IN TOUCH

If your operation cannot afford uncontrolled time, you cannot rely on passive systems. D-Pepper gives you control where it matters most. Deploy control, Stop intrusion Protect operations.
